Allen, David. "Jane Crawford Day." Letter to Brittany Wilharm. 4 Nov. 2011. MS. Office of the Governor, Frankfort, KY.

I wrote to the Governor asking about his motivation for declaring December 13th Jane Crawford Day -- a staff member responded.

Apothecary, Danville, KY. Personal photograph by author. 2011.

Bottles in the Apothecary shop at McDowell House. I used it on my Derision page.

Bell, John, and Charles Bell. "The Womb." *The Anatomy and Physiology of the Human Body Containing the Anatomy of the Bones, Muscles, and Joints, and the Heart and Arteries*. Vol. III. New York: Collins, 1817. 343. Print.

I used an illustration of the womb on my Incision Page. I made a point to include this illustration, because it is from a book written by John Bell, who McDowell studied under. This was the very illustration I had attempted to get from the beginning of my research and had asked many persons in Scotland to help me locate. It was not until I did research at the Vanderbilt University Biomedical Library that I was finally able to obtain a picture of an ovary the same or similar to what McDowell may have seen that enabled him to know what the inside of Mrs. Crawford would look like before he ever made the incision. Co-author Charles Bell was a Fellow of the Royal Society of Edinburgh.

Cornwell, Dean. *Dawn of Abdominal Surgery*. Pioneers of American Medicine. Print.

This postcard was in the McDowell file at Vanderbilt and I included it on my

McDowell House. Photograph. Postcard.

I used this photograph of the McDowell House bedroom to show where Mrs. Crawford stayed.

McDowell monument, Danville, KY. Personal photograph by author. 2011.

The monument on the grounds of Centre College honoring McDowell.

McDowell's Apothecary Shop. Postcard. Print.

This postcard was in the McDowell folder at Vanderbilt. I used it on my Position page and included a caption that shows how rural the area was at that time.

Medical Scales, Danville, KY. Personal photograph by author. 2011.

I took a picture of this scale in the Apothecary and used it on my Conclusion page.

Medical Symbol. Photograph.

I used this picture of the medical symbol to add depth to my website header.

http://journals.lww.com/greenjournal/Fulltext/2001/08000/Symptoms_of_Ovarian_Cancer.6.aspx.

I used this article with it's modern statistics to help illustrate that Mrs. Crawford's survival chance was less than average so the fact that she lived 30 years after the surgery proves that it was revolutionary.

"Ovarian Cancer Statistics." *Cdc.gov*. Centers for Disease Control and Prevention. Web. 25 Jan. 2012. http://www.cdc.gov/cancer/ovarian/statistics/>.

I used this comparison government statistic to see the proportion of incidence counts v. death counts of ovarian cancer as of 2007. However this statistic must be taken with a grain of salt, due to factors that make it incomparable for the purpose of this project: 1) These stats are for 2007, much different than 1809 (Sadly, I was unable to locate statistics for 1809), 2) Due simply to technology and scientific advances, methods would be used today for treatment of this cancer, completely different than that used by McDowell, and finally 3) There are factors such as the age of Mrs. Crawford, the number of children she had, etc, that could have decreased her chances of survival, thus indicating that McDowell's successful surgery was revolutionary.

Thomas, Theodore Gaillard. "Ovariotomy." *A Practical Treatise on the Diseases of Women.* Philadelphia: Lea Bros, 1891. 708. *Google Books*. Web. 14 May 2012. .

I used a screenshot from this book to give my audience a definition of Ovariotomy to clear that up before my website progressed any further. It included the information that a modern definition of Ovariotomy does not describe the same surgery.

The author was under the impression that he had not been the "pioneer" as such and that others had done Ovaritomies before him. However even the author contradicted her own viewpoint when she explained basically that the other doctors may have gotten to the same destination, but had gotten there on the wrong path.

Bryant, Joseph D. "The Indebtedness of Posterity to the Pioneer Surgeon of the Mississippi Valley." *New York State Journal of Medicine* 12.1 (1912): 7. *Google Books*. Web. 27 Jan. 2012.

I used this to expand a quote I had already used on my Derision page.

Dally, Ann G. Women under the Knife: A History of Surgery. Edison, NJ: Castle, 2006.

I used this book to greater understand the history of women's surgery, and used a quote by the author for my Revision page.

Daniels, Shawn, perf. "Amazing Grace." 1895. *Internet Archive*. Web. Dec. 2011. http://www.archive.org/details/AOC33B>.

I used this 1895 version of Amazing Grace to set the mood for the Incision page, because Mrs. Crawford sang hymns.

Ephraim McDowell House Museum. Ephraim McDowell Foundation. Web. 25 Jan. 2012. http://mcdowellhouse.com/>.

I used the McDowell House Museum website for several purposes: To find out more about McDowell himself, to find out more about his home life, to find out more about his home, to find out the address and hours so that I could go there, and to find out the email so that I could contact the staff there.

NNDB is my go-to site for finding a quick summary of famous persons. It is often user-contributed, so I did not rely on it for accurate information, just checked to see if it mentioned anything that I had not seen elsewhere.

"Facile Princeps." *Dictionary and Thesaurus - Merriam-Webster Online*. Merriam-Webster, Inc. Web. 25 Jan. 2012. http://www.merriam-webster.com/dictionary/facileprinceps.

One of my other sources referred to McDowell and his ovariotomy as "Facile Princeps". I used this dictionary to find out what that meant, and discovered they were calling him "easily first".

http://jco.ascopubs.org/content/28/7/1262.full.

This was the source I used the most. I used it to establish a familiarity with McDowell initially, then came back later whenever I was looking for a picture or quote that I remembered seeing there. I had hoped to interview in person David Johnson, who lived in Nashville, but unfortunately I discovered he moved to Dallas. I used the map of the route Mrs. Crawford took from her home to Dr. McDowell's in my website header, and on my Decision page, and on my Mrs. Crawford page to show how fearless Mrs. Crawford was that she rode all that way, with the horn of the saddle pressing against her tumor. I used the textbook illustration on my Incision page to show a sample of what McDowell saw, or might have seen, in his textbooks when he was studying at Edinborough. I used the Portrait of McDowell on my Home page to establish a visual of McDowell for my audience. I used the picture of McDowell House on my Incision page, to show where the surgery took place. I used the copy of the prayer, the same one now residing in McDowell House, to show the faith of McDowell on my Religion page. I used the picture of the statue on my Conclusion page to show the lasting impact McDowell left. KY thought his contribution to the field of abdominal surgery so great that they chose him over Lincoln as one of their two statues in the Statutory Hall Collection.

I used this article on my Conclusion page to show several aspects of historical context: 1) Even in 1901, McDowell House was historic, and Ephraim was long since dead. 2) McDowell's initial fame was long before McKinley's assassination.

3) Yale was founded more than 100 years before the first Ovariotomy. I believe

these things help show how long ago this surgery was, showing how revolutionary it was for it to be successful in it's time.

Dec. 2009. Web. 25 Jan. 2012. http://www.examiner.com/city-hall-in-louisville/today-is-jane-todd-crawford-day-kentucky. This article provided me with several things: A painting to use on my homepage depicting the surgery being performed, the knowledge that there was a holiday named after Mrs.

Crawford, the knowledge that there was a postage stamp commemorating

McDowell, and the knowledge of the name of the governor who declared Jane

Crawford Day. This led me to buy an original of the McDowell envelopes and postage stamps on Ebay. It also led me contact that governor.

 After finding this article in the McDowell folder at Vanderbilt, I gained knowledge about other gynecological surgery in similar eras. I also used a quote about what was known and unknown in the field of medicine at that time. Finally, I used a quote that summed up who McDowell was and the significance of what he did.

Web. 25 Jan. 2012. http://books.google.com/books?id=XRAWAAAAYAAJ. I used this digitalized book to research the controversy over whether James McDowell actually performed the surgery, and to read the letter Jane Crawford wrote telling who she thought performed it, and because almost all articles and books on McDowell cite this book.

Schachner, Dr. August. *Ephraim McDowell, "Father of Ovariotomy" and Founder of Abdominal Surgery, with an Appendix on Jane Todd Crawford.* Philadelphia: Lippincott, 1921. Print.

At the Vanderbilt University Biomedical Library where I researched, they had an actual copy of this book. I then added two quotes by Dr. Johnson which I used to support my Derision page, as he mocked McDowell and did not believe in the success of the operation. Schachner was a Fellow of the American College of Surgeons.

Shepard, Winyss. "History of SMA Alliance." *Southern Medical Association*. Web. Dec. 2011. http://sma.org/sma-alliance/2011/08/27/history-of-sma-alliance.html.
